Rich Ore Is Disclosed in Virgin Ground of the Property.

Ore giving assays of \$135.70, \$118.60 and \$447.55 and carrying from 21 per cent to 48 per cent in lead has recently cent to 48 per cent in lead has recently been disclosed on the lease being worked by J. L. Safford and associates on the Mammoth claim owned by the Sheba Mining company, situated about 15 miles from Mill City, in the Humboldt range. While the ore disclosed shows high values in gold, yet the predominating metal content is silver. Mr. Safford, who is spending a few days in town, states that the rich ore was disclosed at a depth of less than 10 feet on virgin ground. In the opening where the find was made the ledge is big, showing large streaks of the rich ore.

# BIG DEAL FOR HOT CREEK PROPERTIES

Development Will Follow Construction Of Ely-Goldfield Railway and Company Expects Big Results,

Another pointer indicating that there is something in the wind in connection with the construction of the proposed Ely-Goldfield railroad is the fact that a deal has been made for the Hot Creek Consolidated Mines company owning properties at Hot Creek, Nye county, about five miles north of Tybo. The company has given an option on all its treasury stock, 250,000 shares, to the White Investing company, a corporation with offices in Exchange Place, New York city and the White company is also taking options on all the shares issued to stockholders with the intention of resuming work on the properties after the first of next year. An agreement was entered into Oct. 26 between John W. Brock, of Philadelphia, as president of the Hot Creek company, and W. F. White, for the Investing company, covering the terms of the option for control of the company. The 250,000 shares of treasury steek the option for control of the company. The 250,000 shares of treasury stock will be purchased by the White company for 20 cents a share at the rate of not less than 6,250 shares per month. The money received from the sale of the shares will all be expended in developing the mines and the option on the block of stock will run to Dec. 31, 1912. The Land Title & Trust company of Philadelphia will act as agent for the stockholders who accept the terms of the offer from the White company to sell their shares at the same price as it will pay for the treasury stock.

The Hot Creek Consolidated company owns the old Williams and Rattlesnake mines at Hot Creek and is capitalized

mines at Hot Creek and is capitalized for 1,000,000 \$1 shares. There was a mill on the Williams property in the early days of its discovery where the carry days of its discovery where the rich sliver ores were treated. The company owns about 30 claims alto-gether on which development has been extended on some parts to the depth of 300 feet. In the 300 level of the deep-est shaft the ledge is 15 feet wide and est shaft the ledge is 15 feet wide and is a huge concentrating proposition.

The ore will concentrate at the rate of 12 tons into one and make a product worth \$80 a ton. A little more than half a mile south from this point are three shafts from 100 to 150 feet deep from which ore carrying native silver from 160 to 220 ounces per ton has been mined.

Hot Creek is 70 miles from Tonopah and 140 miles from Elv and when rail-

Hot Creek is 70 miles from Tonopah and 140 miles from Ely and when railroad connection is made from either point will be developed into a large producing district that will be tributary to Ely. The fact that the shares placed in escrow by the stockholders are to be transferred to Christian B. Zabriskle and Allmand A. Blow who will have the voting power indicates the deal is controlled by F. M. Smith, president of the Tonopah & Tidewater railroad and the borax king of Death valley who is one of the promoters of the Ely-Goldfield railroad.

Giroux Consolidated Will Erect Large Plant Near Ely.

Plant Near Ely.

The announcement is definitely made that the Giroux Consolidated is to have a new and large smelter on its property near Ely. No details have been given, but the statement that the smelter would be built was made by Thomas F. Cole who is now in Ely. The crection of a smelter has been a mtemplated for some time, by The Giroux interests but has only finally been actiled upon this week. The site has not yet been chosen nor has it been stated what amount will be spent.

Jackson, Tenn., Nov. 17.—Judge John E. M. Call of the U. S. district court this afterneon instructed the jury in the case of the government against the Standard Oil company of Indiana, to return a verdict of not guilty. The jury returned a yerdict of not guilty.

### DUTY OF CATHOLIC PRIESTS IN POLITICAL MATTERS

New Orleans, Nov. 17 .- Monsignor Falconio, papal delegate to the United States, in an interview here today gave an opinion as to the prerogatives of a priest concerning matters of public discussion and action.

"No priest should identify himself with any political party manager," Falconio declared. "He must always stand for the right and for the best men for offices and he must be free to support the right. There are many political questions which do not concern the priest at all. But as to questions concerning the morality of the pcople he can certainly express himself."

### LOCAL MARKETS

Today's local markets are in receipt of more apples, a second consignment of navel oranges, California lettuce and lemons. The latter are lowering in price, the quotations today being \$8.50 per case. Potatoes are getting scarce, per case. Potatoes are getting scarce, so prices are stiffly held at \$1.10 and \$1.25 per cwt. A fairly full line of Utah vegetables is at hand, including fresh radishes. New Syrian dates are also on the market. Oats are up 5 and 10 cents, owing to a temporary scarcity. There is no change in the prices of meats as yet, though dealers say they are bound to fall in a week or two. Pomegranates continue to arrive from Moapa. The quotations today, are as follows:

# WESTERN MARKET LETTER.

(Special Correspondence.)

Kansas City, Stock Yards, Nov. 14. Cattle feeders in the corn belt are get ting scared and are sending too many cattle to market. A flood of short fed steers in Chicago broke that market half a dollar last week, and the decline was reflected at all other markets Locally the run was not excessive, footing up 65,000 head for the week, a decrease of 14,000 head from previous week. A good many range beef steers week. A good many range beef steers came last week, and buyers took them in preference to the short fed steers. Some of the best Colorados of the year were here last week, and sold at \$5.75, other good Colorados at \$1.90 to \$5.30, Range beef steers were called 10 to 25 lower this week, cows off 5 to 15 cents, stockers and feedrs 15 to 25 lower. The run today is 21,000 cattle here, market steady on westerns weak on fed The run today is 21,000 cattle here, market steady on westerns, weak on fed cattle. Some medium class Colorado beef steers brought \$4.90 today, feeders at \$5.70, and choice stockers from Colorado, 779 pounds, at \$4.90, cows \$4.15. Helfers sold up to \$4.60 last week. New Mexico and panhandle beef steers sell at \$4 to \$4.75, cows \$3.20 to \$4.05, feeders \$4 to \$5.10, stockers \$3.25 to \$4.50. Some Wyoming beef steers brought \$5.25 Wyoming beef steers brought \$5.25. Utah's \$4.75. The depression in fed cattle has discouraged country buyers, but it hurts fleshy feedra most, and is felt least by the stockers and feeders from the range country, for the reason that the latter will be held longer, and the element of chance has more room

the element of chance has more room to play in.

Sheep and lambs still some freely, run here last week 54,000 hend. The market is slipping a little, 15 to 25 lower last week, and a shade lower today, run 12,600 here today. Two-thirds of the stuff coming is in the feeder class, and prices on this kind are going down faster than prices on fat stuff. Rest, range lambs last week brought \$6.40, top on fed natives, \$6.55, feeding lambs worth \$5 to \$5.25. Light yearlings are worth up to \$4.75, heavy yearlings \$4.50, wethers around \$4, ewes \$3.25 to \$3.75. There is a world of stuff on feed, but so far very little of it has moved. The influence is being felt already, and unless an extraordinary demand develops for mutton, prices will likely be considered low by sellers.

# DEALINGS LIGHT CLOSE DULL, HEAVY

New York, Nov. 17.—Opening prices of stocks today declined somewhat pre-cipitately for the most active issues on light dealings, while there was a sprinkling of gains in stocks of minor impor-tance. Thirty-five hundred shares of Union Pacific sold at 1771 and 177 compared with 178% last night.

Great Northern preferred and Sears-Roebuck declined 1½. St. Paul 1½ Amalgamated Copper and American Smelting I and Northern Pacific, Southern Pacific, New York Central, Reading and U. S. Steel large fractions. Pacific Telephone rose a point and Kansas & Texas ?

Stocks were liquidated at a lively rate for a time the seiling showing much urgency in spots. Great Northern preferred broke 3 points, Union Pacific 3, New York Central, Southern Pacific and U. S. Express 2, St. Paul 1¾, Reading and Northern Pacific 1½, U. S. Steel ¼ and the list generally a point. Buying orders were distributed when the decline was becoming serious and there were recoveries of about a point in the stocks that had become weakest.

The sharp break in prices was the outgrowth of renewed distribut of the speculative leadership on the long side. Signs of dividends were discussed in connection with Mexico had some depressing influence. After the thinness of the market had been demonstrated the selling was not pushed urgently.

The dealings lapsed into dulness, Federal Mining preferred rose 24 and Amalgamated Copper declined 1½.

Bonds were fregular.

While the undertone of the market was better there was no demand of consequence, prices ruling a fraction above the low figures of the morning.

The speculation came practically to a halt but there was a lightly better range of prices. Great Northern Ore certificates rose 1.

The market closed heavy and lifeless. Prices ran off again but the decline was checked short of the previous low point. Demand was exceedingly languid at prices above the lowest, Allis-Chalmers preferred advanced 2, American Brake Shoe 1¼ and Pittsburg Coal preferred 1. Great Northern preferred and Sears-Roebuck declined 13, St. Paul 13 Amal-

# PRODUCE.

CHICAGO.

Chicago, Nov. 17.—Wheat prices rose sharply today when confronted with news of an advance at Liverpool in the face of a decline yesterday on this side of the Atlantic. Offerlings here were light and the demand fair. Renewed attention was given to reduced estimates of the Argentine crop and to the fact that cash prices kept firm in all directions. The leading bull house was credited, too, with having picked up cleap the wheat that the crowd threw overboard on yesterday's break. From the northwestern flour mills came the reports of their running strongly. Prices here opened 4a 1 to 4a 1 higher with May covering the extreme range at 962 to 983. There was a further gain to 971. With weather conditions favorable and a general decline on heavy shipments, corn traders did not share in the enthusiasm of the wheat pit. May started unchanged to a shade lower at 475a to 473, duiness did not prevent a gain. CHICAGO.

134 to 442, equeled 43 and defined to 154.

In oats, dulness did not prevent a gain in sympathy with wheat. May opened a sixteenth to 4 up at 344 to 344 a and held firmly within that range.

A larger run of hogs west eased provisions at the start but the effect was only temporary. First sales were unchanged to 22 down with January at 17.39 for pork; 19.6% to 19.10 for lard, and 9.175 for ribs.

Wheat—General storm indications

changed to 22 down with January at 17.39 for pick; 10.075 to 10.10 for lard, and 9.175 for ribs.

Wheat—General storm indications southwest promising relief from dryness occasioned a temporary reaction but the market railled on assertions that more rain was needed in Argentina and that the Canadian northwest was drouth-stricken. The close was easy at 957 for May, a net gain of 1493.

Corn—Weakness developed when wheat sagged. Additional causes were found in large country offerings at Omaha. The market closed easy with May at 472, a net loss of 5.
